RELIVE

*No matter where you are on your
liver transplant journey, we are here
for you-
You are not alone.*

A message from our Founders

Thanks to the generosity and support of our Founding Donors, we have achieved fundamental and significant milestones.

We have taken great care with the donations we received. Truthfully, it all works toward one goal: That we may continue to serve patients and loved ones suffering from liver failure and exist in the liver transplant world, regardless of cause, to the absolute best of our abilities.

We look to a bright future- one where we may be able to touch, alleviate and elevate countless lives affected by the difficulties our cause addresses. To bring company where there was solitude, hope in the bleakest situations and at the end of the dark tunnel, light.

With Love and Gratitude,
Trent Ford and Natalie Cohen

In Our First Year:

- Achieved critical 501(c)(3) nonprofit status.
- Obtained sterling legal, insurance and accountancy backing.
- Built a comprehensive, incisive website.
- Established a dedicated Helpline.
- Assembled medical experts of the highest level in all pertinent fields to form our RELIVE Medical Advisory Board.
- Hosted hundreds of hours of counseling sessions and virtual support group meetings.
- Served more than 260 patients and caregivers in need.

Testimonials

The meetings are **incredibly helpful** and are **absolutely priceless**. Thank you for doing this.

Pre and post-transplant me and my loved ones **did not know what to do or where to go. This group has provided us with a family we never knew was out there**. It helps me as a patient and my wife as a caregiver.

Wonderful resource. The freedom to talk about Liver Disease and its roots openly is **incredibly unique**.

When dealing with something as complex as transplant, **it takes a strong family to get through the entire process** - both pre and post, and **this is what I and other members receive from this group**.

Trent and Natalie have been invaluable.. Most of the people in the other AA meetings I attend don't have any idea what it's like to need a liver transplant. **We've become a family who supports each other. Going through this process without this group is unimaginable**.

The honesty, struggles, the **compassion** and **empathy** of the group is something that I am grateful for. **I feel much less uncertain as to what lies ahead**, and I feel that as questions arise, **I can reach out**.

I'm blessed and happy. These groups, this community goes a long way towards that. We are family. Proud and humbled.
